

Grow with AI Bootcamp for Kids!

Unleash the Future Innovator in Your Child

A 3-days (June 20th~22nd) immersive journey into AI, Coding, Robotics, and Creative Tech

Grade 6 to 8 | **Fun • Hands-on • Future-ready**

Educate Hyderabad
Vision towards *AI-Enabled City*
CSR Initiative by intrapreneur.pk

Program Overview

🚀 Dive into a thrilling **3-day experience** designed to inspire and empower young creators!

- ✓ Kids coding, Explore building robots with DIY, and explore AI with Art of Prompting
- ✓ No prior experience needed—just curiosity & enthusiasm
- ✓ Learn by doing with hands-on projects
- ✓ Connect with like-minded young innovators

Coding

Robotics

AI

Creative Tech

Who Is This For?

 Perfect for Grade 6–8

Designed for **curious minds** ready to explore the world of technology!

Real-world Tech Skills

Learn practical coding, AI, and robotics skills that prepare for future careers

Boost Creativity

Develop teamwork, problem-solving, and innovative thinking abilities

Build Confidence

Gain confidence as a future-ready innovator through hands-on achievements

Please just bring enthusiasm and imagination to Grow with AI!

What Kids Will Learn

Kids Coding with Python

Fun projects and programming basics that teach real-world skills. Kids will create games, solve puzzles, and build their first applications using Python's beginner-friendly syntax.

Robotics & DIY for Kids

Build smart bots and gadgets using sensors, circuits, and code. Kids will program real robots to navigate mazes, respond to their environment, and solve challenges.

Scripting & Visuals with Paid AI Tools

Turn code into animations, games, and visual effects. Children will learn to create interactive stories, design game characters, and build virtual worlds with creative coding.

Basic AI Model Training

Discover how AI tools work. Kids will train their own simple models, create AI art, and explore the ethical dimensions of artificial intelligence.

The LEAD Model

Day 1: Learn & Explore

Hands-on discovery guided by mentors and AI engineers. Kids explore tools, concepts, and exciting tech possibilities in an engaging environment.

Day 2: Act

DIY activities, coding labs, and a mini **Hackathon** where kids collaborate in teams to build their own projects and solutions.

Day 3: Demonstrate

Kids showcase their creations, pitch their ideas like future tech leaders, and receive feedback from experts and fellow participants.

Skills developed: **Problem Solving • Teamwork • Communication • Creativity**

Hackathon Highlights

Tackle **real-world challenges** with AI

Build **mini projects** in teams

Showcase ideas and get **expert feedback**

Earn **certificates and Awards!**

Celebrating creativity, innovation, and teamwork!

Program Features & Requirements

Learn **Ethics for use of AI**, Grow with right **AI Tools**, Feel **Competitive Environment!**

Guided by **industry mentors** and experienced **AI Engineers**

All **Kids Coding, Robotics**, work with **AI Models & Art of Prompting** included in the program

Fun, engaging, and hands-on every step of the way!

Each participant receives a **Certificate of Completion** and project portfolio

Ready to Unleash Your Child's Potential?

🎓 Secure your kids spot now for the **AI adventure!**
Registration and Confirmation is Mandatory
